Internship Application – Software Engineering Role at Shaderl

Dear Shaderl Team,

I am writing to express my interest in a software engineering internship at Shaderl. As a passionate software engineering student with a basic understanding of software development principles, I am eager to apply my skills in a fast-paced, innovative startup environment like yours.

Shaderl's mission and startup culture, as projected on their website and further elaborated by who I believe to be the Founder of the enterprise, Mr. ASANE Derick, align with my drive to learn, solve real-world problems, and contribute to building impactful products. I am particularly interested in gaining hands-on experience while collaborating with a motivated team to tackle technical challenges.

I would appreciate the opportunity to discuss how I can contribute to Shaderl's projects and growth.

Thank you for your time and consideration.

Best regards,

Afanyuy Caleb
